TABLE OF CONTENTS

GS-I: Paper I 3
1. Kurumbas of Attappady: A PVTG Struggling to Keep Its Oral Language Alive 3
2. Buxa Tiger Reserve: A Tigress Escapes Her Enclosure in the Dooars 5

GS-II: Paper II 7
3. No Automatic Share by Birth: Supreme Court on a Grandson's Claim to Grandfather's Property 7
4. India–Bangladesh Ties and the Question of Sheikh Hasina's Return 9
5. 23rd ASEAN–India Summit and 21st East Asia Summit in Manila 11
6. India–Sri Lanka Innovation Forum: Start-ups as a New Bridge 13
7. WHO Global TB Report 2026: Deaths Down, but India's Incidence Estimate on Hold 15
8. KVS Goes Digital: Three Platforms for Monitoring, Parents and Alumni 17

GS-III: Paper III 19
9. Siang Upper Multipurpose Project: Strategic Dam or Threat to the Adi Homeland? 19
10. COP31 in Antalya: From New Promises to Delivery 21
11. India's Green Jobs Moment: 1.3 Crore Jobs by 2035 – If the Skills Arrive 24
12. Retail Inflation Crosses 6%: What the New CPI Measures and What Comes Next 26
13. Pioxaniliprole: India's First Home-Discovered Insecticide Molecule 28
14. Rattlepod in Bloom: Munnar's Grasslands Turn Gold 30
15. Nawegaon-Nagzira Tiger Reserve: Tiger Death by Suspected Electrocution 32
16. Karakoram-2026: China and Pakistan's First Regular Army Exercise 34

GS-IV: Paper IV 36
17. Ethics Synthesis: Consent for a Survey Is Not Consent for a Dam 36

GENERAL STUDIES PAPER I

[GS-I] Indian Heritage & Culture, History, Geography of the World and Society

GS-I | Society – Tribes; Endangered Languages

1. Kurumbas of Attappady: A PVTG Struggling to Keep Its Oral Language Alive

Syllabus: *GS-I: Salient features of Indian society; diversity; tribal communities. GS-II: Welfare of vulnerable sections.*

CONTEXT

As the **Census enumeration** goes on, concern is growing that the **Kurumba language** of Kerala's small **Kurumba** community could **fade away**.

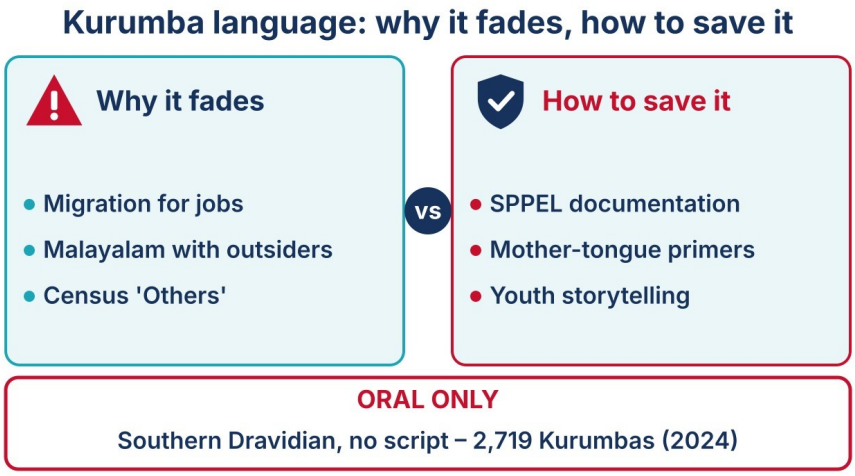

Illustration: why the Kurumba language is fading – and the steps that can keep it alive.

KEYWORDS DEFINED

Keyword	Meaning
PVTG	**Particularly Vulnerable Tribal Group** – tribes with **pre-agricultural technology, low literacy, stagnant or falling population**; listed by the **Ministry of Tribal Affairs**.
Oral language	A language that is **spoken but has no script** of its own.
Language shift	When a community **gradually stops using its own language** and adopts another.
Oor / Ooru	A **traditional Kurumba hamlet**, run by a headman called the **Mooppan**.
SPPEL	**Scheme for Protection and Preservation of Endangered Languages** – documents languages under threat; run by the **Central Institute of Indian Languages (CIIL)**.

Who they are

- An **Adivasi community** of the **Attappady** hills, **Palakkad district**, Kerala; also found in **Tamil Nadu (Nilgiris)** and **Karnataka**.

Join FREE on Telegram
t.me/Prep_Rashan

- One of the **five PVTGs of Kerala**; locally called **Palu Kurumbas** (the **Alu Kurumbas** live in the Nilgiris).
- Live in **19 traditional settlements (Oors)** in the **Nilgiri Biosphere Reserve**; population only **2,719 (2024)**.
- One of three main Attappady tribes, with the **Irulas** and **Mudugas**.

Culture and governance

- **Ooru system:** headman **Mooppan**, deputy **Kuruthala**, treasurer **Vandari**, ritual farmer **Mannukkaaran**.
- Worship **forests, hills, rivers** and ancestors; deities kept in small shrine huts called **Kaavu**.
- Festivals such as **Malleeshwaran Shivarathri**; traditional **shifting cultivation (punam)**, **millets** and forest produce like **wild honey**.

The language

- **Kurumba** belongs to the **Southern Dravidian** branch of the **Dravidian** family.
- **Oral only – no script** of its own.
- Young people now mix in **Malayalam** words; elders hold most of the vocabulary.

Why it is fading and what helps

- **Migration** for school and jobs; **Malayalam** used with outsiders.
- The Census groups languages with **fewer than 10,000 speakers** under **'Others'** – reducing **visibility**.
- **SPPEL (CIIL)** lists Kurumba for **documentation** – recordings, dictionaries, grammars.
- Next steps: **mother-tongue primers** in early classes, **community-led archives**, and **youth storytelling** projects.

PYQ – PRELIMS

- **Pattern:** Prelims asks about **PVTGs**, their **States** and **language families**.

PYQ – MAINS

- **Pattern:** Mains asks about **tribal identity**, **cultural erosion** and **protection of minority languages**.

FQ – PRELIMS (Possible Question)

- Consider: 1. The Kurumbas are a PVTG in Kerala. 2. The Kurumba language has its own script. 3. It belongs to the Dravidian family. Which are correct? **(Ans: 1 and 3 only)**

FQ – MAINS (Possible Question)

- "When a language dies, a way of seeing the world dies with it." Discuss with reference to India's small tribal languages. (150 words)

GS-I | Geography – Places in News (Mapping); Protected Areas

2. Buxa Tiger Reserve: A Tigress Escapes Her Enclosure in the Dooars

Syllabus: *GS-I: Important geographical features and their location. GS-III: Conservation; protected areas.*

CONTEXT

West Bengal sent **six trained kunki elephants** and **60 staff** to track a **radio-collared tigress**, brought from **Valmiki Tiger Reserve**, who **escaped her enclosure** at **Buxa Tiger Reserve**.

Photo: forest of Buxa Tiger Reserve with the Bhutan hills behind.
Photo: Swaroop Singha Roy, Wikimedia Commons, CC BY-SA 4.0

KEYWORDS DEFINED

Keyword	Meaning
Kunki elephant	A **trained captive elephant** used to **track, drive back or rescue** wild animals.
Terai–Dooars	The **flat, moist foothill belt** below the Himalayas – **Dooars** means 'doors' (passes) to Bhutan.
Radio collar	A collar with a **transmitter** that lets foresters **track an animal's movement**.
Stromatolite	**Layered rock** built by ancient **microbes (cyanobacteria)** – among the oldest signs of life.
Project Tiger	India's tiger conservation programme, launched in **1973**.

Location (mapping)

- In **Alipurduar district**, northern **West Bengal**, in the **Eastern Himalayan foothills (Terai–Dooars)**.
- **North:** the **Sinchula range** on the **Bhutan** border; **east:** the **Assam** border.
- Area about **760 sq km**; height from **60 to 1,750 m**.

History

- Made the **15th Tiger Reserve** of India in **1983** under Project Tiger.
- **Wildlife Sanctuary** in **1986**; a core of **117.10 sq km** became a **National Park** in **1992** (final notice **1995**).
- Houses **Buxa Fort**, where the British **jailed freedom fighters**; once known for **dolomite mining** and **timber**.

Join FREE on Telegram
t.me/Prep_Rashan

Rivers and landscape

- Rivers from the **Bhutan hills**: **Sankosh, Raidak, Jayanti, Churnia, Turturi, Phashkhawa, Dima, Nonani**.
- **Terai sal forests**, semi-evergreen woods, moist grasslands.
- **Stromatolite-bearing dolomite** and limestone caves – the **Mahakal Caves** near **Jayanti**.

Wildlife and the tiger plan

- **284+ bird species** including **hornbills** and **Bengal florican**; **elephants, gaur, clouded leopards, golden cats, pangolins**.
- Tigers being **brought back** by relocation from **Valmiki Tiger Reserve** (Bihar).
- Escape shows the need for **strong soft-release enclosures** and **village alert** systems.
- Part of a **key elephant corridor** linking Bhutan and Assam *(general knowledge)*.

PYQ – PRELIMS

- **Pattern:** Prelims asks to **locate tiger reserves** and match them with **States, rivers or borders**.

PYQ – MAINS

- **Pattern:** Mains asks about **tiger relocation** and **human–wildlife conflict**.

FQ – PRELIMS (Possible Question)

- Buxa Tiger Reserve shares an international border with: (a) Nepal (b) Bhutan (c) Bangladesh (d) Myanmar **(Ans: b)**

FQ – MAINS (Possible Question)

- What lessons does the escape of a relocated tigress at Buxa offer for tiger reintroduction programmes? (150 words)

GENERAL STUDIES PAPER II

[GS-II] Governance, Constitution, Polity, Social Justice & International Relations

GS-II | Polity – Personal Laws; Judiciary

3. No Automatic Share by Birth: Supreme Court on a Grandson's Claim to Grandfather's Property

Syllabus: *GS-II: Indian Constitution – judiciary; personal laws; issues relating to women and family. GS-I: Society.*

CONTEXT

The **Supreme Court** held that a **grandson does not get a share** in his **grandfather's property** just **by birth** – it depends on the **nature of the property** and the **1956 Hindu Succession Act**.

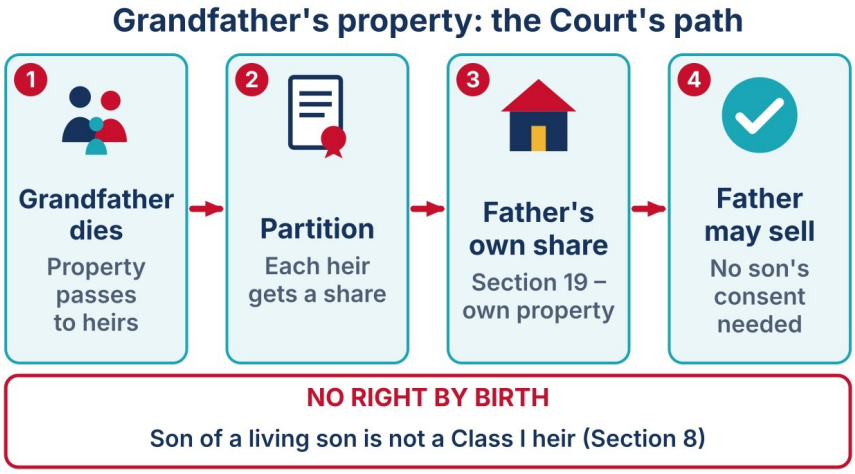

Illustration: how the Court traced the property – from the grandfather, through partition, to the father's own share.

KEYWORDS DEFINED

Keyword	Meaning
Coparcenary	A **joint Hindu family** group whose members get a **share in ancestral property by birth** (Mitakshara).
Intestate	Dying **without a valid will**.
Class I heirs	The **first in line** to inherit a Hindu male's property – e.g., **sons, daughters, widow, mother**.
Tenants in common	Co-owners who each hold a **separate, defined share** they can **sell or will away**.
Partition	**Dividing** joint property into **separate shares** for each heir.

The case

- A grandfather's property was **divided among his heirs** after a **partition suit** filed by his **daughter**.
- His **son** got a plot under a **compromise deed** and **later sold it**.
- The son's **son** challenged the sale, saying the land was **ancestral** and he had rights **by birth**.

Join FREE on Telegram
t.me/Prep_Rashan

Two schools of Hindu law

- **Mitakshara** (most of India): a son traditionally gets an **interest by birth** in **ancestral coparcenary** property.
- **Dayabhaga** (mainly **West Bengal and Assam**): **no right by birth** – inheritance opens only **after the father's death**.

The law applied

- **Section 8, HSA 1956:** how a Hindu male's property passes when he dies **intestate**.
- **Class I heirs** include sons, daughters, widow, mother and the **son of a predeceased son** – but **not the son of a living son**.
- **Section 19:** heirs hold as **tenants in common** – each gets a **separate share** and owns it **independently**.

What the Court held

- **No automatic right by birth:** a grandson cannot claim under Section 8 while **his father is alive** and is himself an heir.
- **After partition**, each heir became the **sole owner** of his share – the father could **sell without his son's consent**.
- Succession opened at the grandfather's death **before the grandson was born** – so he was **not a coparcener** then.
- **Value addition:** the **2005 amendment** made **daughters coparceners** by birth, equal to sons *(general knowledge)*.

PYQ – PRELIMS

- **Pattern:** Prelims asks about **personal law statutes** and **landmark rulings**.

PYQ – MAINS

- **Pattern:** Mains asks about **personal laws**, **gender justice** and the role of the **judiciary**.

FQ – PRELIMS (Possible Question)

- Under the 1956 Hindu Succession Act, which of the following is NOT a Class I heir of a Hindu male? (a) Daughter (b) Widow (c) Son of a predeceased son (d) Son of a living son **(Ans: d)**

FQ – MAINS (Possible Question)

- Is a grandson entitled by birth to a share in property his grandfather left? Discuss with reference to the 1956 Hindu Succession Act. (150 words)

GS-II | International Relations – India and its Neighbourhood

4. India–Bangladesh Ties and the Question of Sheikh Hasina's Return

Syllabus: *GS-II: India and its neighbourhood – relations; bilateral agreements; effect of policies of other countries on India's interests.*

CONTEXT

Former Bangladesh Prime Minister **Sheikh Hasina**, now living in **India**, says she will **return home in December** – creating a **diplomatic dilemma** for India.

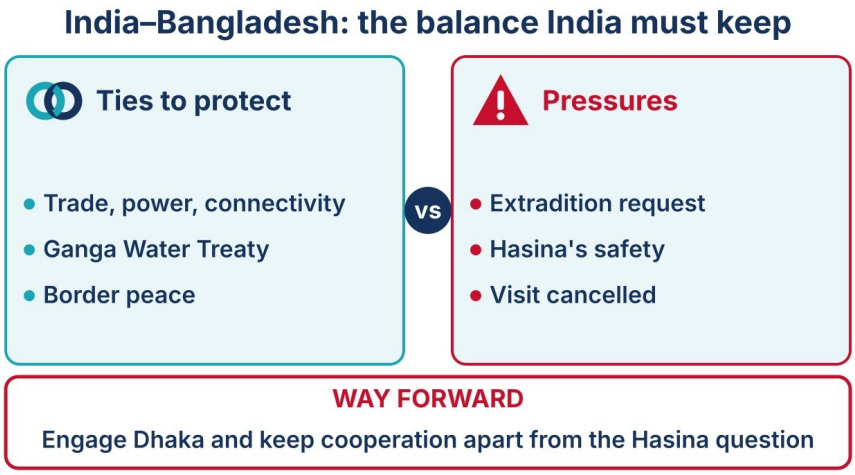

Illustration: the competing pulls India must balance in its ties with Bangladesh.

KEYWORDS DEFINED

Keyword	Meaning
Extradition	The **formal handing over** of a person by one country to another for **trial or punishment**.
Neighbourhood First	India's policy of **giving priority** to ties with its **immediate neighbours**.
Ganga Water Treaty	The **1996** India–Bangladesh agreement on sharing the Ganga's dry-season flow at **Farakka**; due to **expire in 2026**.
Petrapole	A major **land border crossing** between India and Bangladesh in **West Bengal**.
Awami League	The political party led by **Sheikh Hasina**.

What has happened

- Hasina applied for a **new passport and national ID** through Bangladesh's **High Commission in Delhi**; the request was **rejected**.
- The Government of PM **Tarique Rahman** wants her back through the **extradition agreement**, as a **prisoner transfer**.
- A tribunal **convicted** her over the **2024 crackdown on student protests** and **sentenced her to death**.
- She plans to return in **December** to fight her case and **rebuild the Awami League**.

Dhaka's dilemma

- Letting her return could spark **protests and violence**.

Join FREE on Telegram
t.me/Prep_Rashan

- Stopping her could help the opposition **Jamaat-e-Islami**.
- Any **execution** would draw **strong international criticism**.

Challenges for India

- **Ties have worsened**; a planned visit of Bangladesh's PM to India was **cancelled**.
- **Extradition obligations** vs concern for her **safety** and **fair trial**.
- **Ganga Water Treaty** renewal talks have **slowed**.
- India cannot stop her **physically** from crossing at **Petrapole** or flying to **Dhaka**.

Way forward

- **Steady engagement** with Dhaka to rebuild **trust**.
- **Ring-fence cooperation** – trade, power, connectivity, water – from the **Hasina question**.
- Handle extradition with **due process** and **humanitarian care**.
- Prioritise **renewal of the Ganga Water Treaty**.

PYQ – PRELIMS

- **Pattern:** Prelims asks about **India–Bangladesh agreements** (water, land boundary) and **border points**.

PYQ – MAINS

- **Pattern:** Mains asks about **India–Bangladesh relations** and **Neighbourhood First**.

FQ – PRELIMS (Possible Question)

- The Ganga Water Treaty between India and Bangladesh relates to sharing water at: (a) Tipaimukh (b) Farakka (c) Teesta Barrage (d) Bhagalpur **(Ans: b)**

FQ – MAINS (Possible Question)

- India must balance ties with Bangladesh against its concern for a former leader's safety. Discuss the challenges and suggest a way forward. (250 words)

GS-II | International Relations – Regional Groupings

5. 23rd ASEAN–India Summit and 21st East Asia Summit in Manila

Syllabus: *GS-II: Regional and global groupings and agreements involving India; Act East Policy.*

CONTEXT

The **Prime Minister** will visit **Manila, the Philippines**, on **16–17 November 2026** for the **23rd ASEAN–India Summit** and the **21st East Asia Summit**.

Illustration: the ASEAN–India Summit and the East Asia Summit side by side.

KEYWORDS DEFINED

Keyword	Meaning
ASEAN	**Association of Southeast Asian Nations** – now **11 members** with **Timor-Leste**.
CSP	**Comprehensive Strategic Partnership** – the **highest level** of India–ASEAN ties.
EAS	**East Asia Summit** – a **leaders-led forum** on strategic, political and economic issues.
Act East Policy	India's policy of **deeper ties with Southeast and East Asia**.
Plan of Action	A **five-year roadmap** of ASEAN–India cooperation.

ASEAN–India Summit

- **Annual** summits since **2002**; 2026 is the **23rd**.
- India and **all 11 ASEAN members**; theme **'Navigating Our Future, Together'**.
- Reviews the **CSP** and the **Plan of Action 2026–2030**.

Why it matters

- 2026 is the **ASEAN–India Year of Maritime Cooperation**.
- Trade with ASEAN about **US$122 billion**.
- Central to **Act East** and a stable **Indo-Pacific**.

Join FREE on Telegram
t.me/Prep_Rashan

East Asia Summit

- Set up in **2005**; first summit in **Kuala Lumpur**; 2026 is the **21st**.
- **19 members:** 11 ASEAN states + **Australia, China, India, Japan, New Zealand, South Korea, Russia, US**.
- Chair **rotates** among ASEAN states: **Philippines 2026**, **Singapore 2027**, **Thailand 2028**.

Issues on the table

- **Maritime security** and freedom of navigation.
- **Supply chains**, digital links and connectivity.
- **Climate**, disasters and **energy security** in the region.

PYQ – PRELIMS

- **Pattern:** Prelims asks about **members of groupings** and **summit facts**.

PYQ – MAINS

- **Pattern:** Mains asks about **Act East** and India's role in the **Indo-Pacific**.

FQ – PRELIMS (Possible Question)

- Consider: 1. The East Asia Summit has 19 members. 2. Its first summit was held in Kuala Lumpur. 3. The US is not a member. Which are correct? **(Ans: 1 and 2 only)**

FQ – MAINS (Possible Question)

- How do ASEAN-led forums such as the East Asia Summit serve India's Act East and Indo-Pacific goals? (150 words)

GS-II | International Relations – India and Sri Lanka

6. India–Sri Lanka Innovation Forum: Start-ups as a New Bridge

Syllabus: *GS-II: India and its neighbourhood; bilateral relations. GS-III: Science and technology – start-ups and innovation.*

CONTEXT

The **India–Sri Lanka Innovation Forum** was launched in **Colombo** – a **business-led platform** for start-up founders, investors, incubators and industry leaders from both countries.

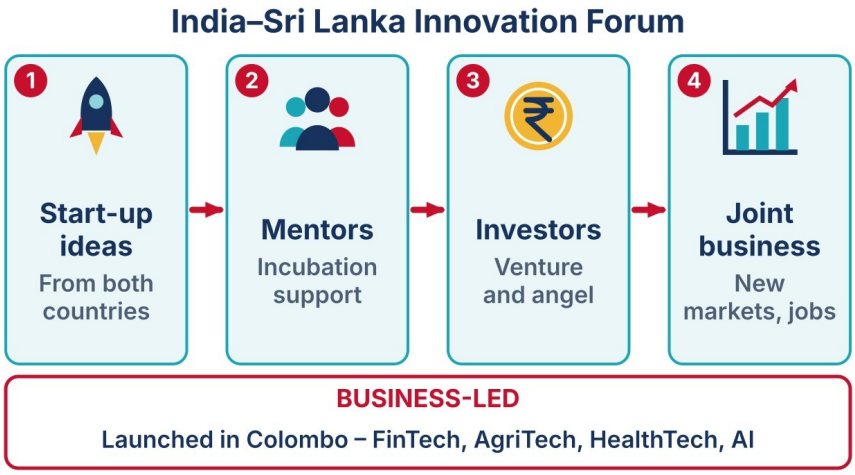

Illustration: how the Innovation Forum turns joint ideas into joint businesses.

KEYWORDS DEFINED

Keyword	Meaning
Start-up	A **young company** built around a **new product or idea**, aiming to grow fast.
Incubator	An organisation that **nurtures early start-ups** with space, mentoring and contacts.
Venture capital	**Investment in young, risky firms** in return for a share of ownership.
Angel investor	An **individual** who funds a start-up at a **very early stage**.
Interoperability	Systems of two countries that **work together smoothly**, e.g., digital payments.

What it is

- An **informal, continuous, business-led** platform – not a government body.
- Links **founders, venture investors, incubators** and **corporate leaders** of both countries.
- Aim: turn tech cooperation into **commercial partnerships** and **joint ventures**.

Key functions

- **Matchmaking** start-ups with venture and angel investors.
- **Mentoring and incubation** – product localisation and scaling help.
- **Commercialising joint research** in **FinTech, AgriTech, HealthTech, AI** and **clean mobility**.

Market and policy

- Sri Lankan start-ups can **enter Indian markets**; Indian firms can **grow in Sri Lanka**.

Join FREE on Telegram
t.me/Prep_Rashan

- Spots **regulatory barriers** and improves **digital trade interoperability**.

Why it matters

- Moves ties beyond **trade and infrastructure** to **knowledge industries**.
- Builds a **cross-border innovation ecosystem** in the **Indian Ocean region**.
- Creates **jobs** and **youth-led entrepreneurship** on both sides.

PYQ – PRELIMS

- **Pattern:** Prelims asks about **new bilateral initiatives** and **where they were launched**.

PYQ – MAINS

- **Pattern:** Mains asks about **India–Sri Lanka relations** beyond security and trade.

FQ – PRELIMS (Possible Question)

- The India–Sri Lanka Innovation Forum, recently launched, is best described as: (a) A treaty body under SAARC (b) A business-led platform for start-ups and investors (c) A joint naval R&D centre (d) A government-run trade tribunal **(Ans: b)**

FQ – MAINS (Possible Question)

- How can technology and start-up cooperation strengthen India's ties with its maritime neighbours? (150 words)

GS-II | Governance – Health; Reports

7. WHO Global TB Report 2026: Deaths Down, but India's Incidence Estimate on Hold

Syllabus: *GS-II: Issues relating to health; government policies and interventions. GS-III: Science and technology in health.*

CONTEXT

The **WHO Global Tuberculosis Report 2026** shows TB deaths down **35% since 2015** – but it **left out India's estimated incidence**, pending a **50-district sentinel survey**.

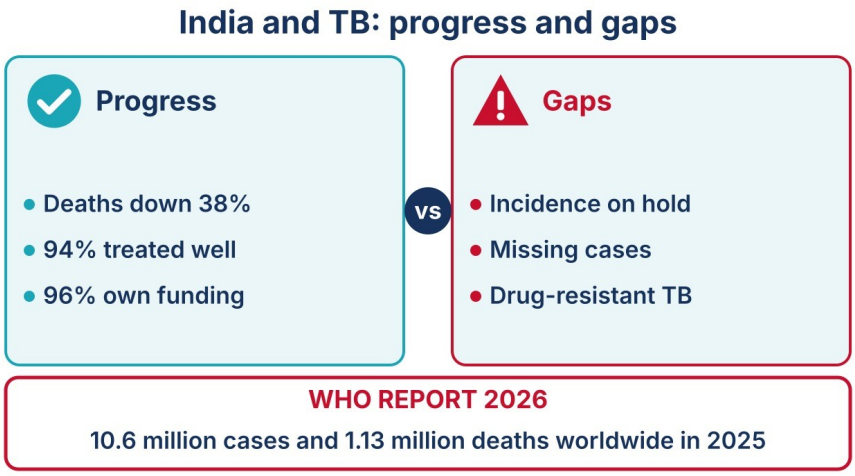

Illustration: where India stands on TB – progress made and gaps still open.

KEYWORDS DEFINED

Keyword	Meaning
Incidence	The number of **new TB cases** in a year – **estimated** by modelling.
Notified cases	Cases **actually diagnosed and reported** to the health system.
Sentinel survey	A survey in **selected representative districts** that can be **repeated often** at lower cost.
MDR-TB	**Multidrug-resistant TB** – does not respond to the two main TB drugs.
End TB Strategy	WHO's plan to **cut TB deaths and cases** steeply by **2030–2035**.

About the report

- Annual flagship report of the **World Health Organization (WHO)**.
- Data from **187 countries and areas** – over **99%** of the world's people and TB cases.
- Compares **estimated** cases with **notified** cases to find the **'missing'** patients.

Global findings

- **10.6 million** people fell ill with TB in **2025**; **1.13 million** died.
- Deaths down **35% since 2015** – the first End TB milestone, reached **five years late**.
- **International donor funding fell 14%**.

Join FREE on Telegram
t.me/Prep_Rashan

India's findings

- Nearly **one-fourth** of global cases; **25.3 lakh** diagnosed in 2025 (26.18 lakh in 2024).
- **2.63 lakh deaths** in 2025 – a **38% fall** since 2015, better than the global **35%**.
- **94% treatment success**; about **96%** of programme funds from the **domestic budget**.
- India's **incidence estimate** is **under review** – the sentinel survey of **50 districts (2025)** is being calibrated against the **2020–21** national survey.

Gaps and the way ahead

- **Missing cases**, **private-sector** patients, **MDR-TB** and **stigma**.
- **Ni-kshay Poshan Yojana** (DBT for nutrition), **Ni-kshay Mitra**, **Truenat/CBNAAT** tests, shorter **all-oral** MDR regimens.
- Publish **State and district data** on time; take **AI chest X-rays** and molecular tests to **Ayushman Arogya Mandirs**.
- **Death audits**, **contact tracing** and **TB preventive therapy**.

PYQ – PRELIMS

- **Pattern:** Prelims asks about **health reports, their publishers** and **national programmes**.

PYQ – MAINS

- **Pattern:** Mains asks about **TB elimination**, **health data** and **public health systems**.

FQ – PRELIMS (Possible Question)

- Consider: 1. India's TB deaths fell by 38% between 2015 and 2025. 2. Most of India's TB programme is funded by foreign donors. 3. Ni-kshay Poshan Yojana gives nutrition support through DBT. Which are correct? **(Ans: 1 and 3 only)**

FQ – MAINS (Possible Question)

- "India's TB fight now needs better data as much as better drugs." Discuss. (150 words)

GS-II | Governance – Education; E-Governance

8. KVS Goes Digital: Three Platforms for Monitoring, Parents and Alumni

Syllabus: *GS-II: Education; government policies; e-governance. GS-III: Applications of AI. GS-IV: Transparency in public administration.*

CONTEXT

The **Ministry of Education** launched three **Kendriya Vidyalaya Sangathan (KVS)** digital platforms – an **AI-integrated Vidya Samiksha Kendra**, **KVS-Samvaad Parent Connect** and a **KVS Alumni Connect Portal**.

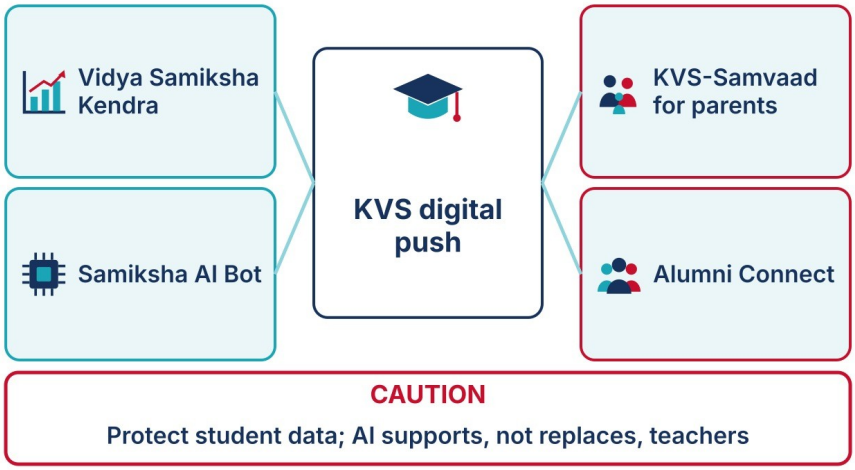

Illustration: the three new KVS digital platforms and who each one serves.

KEYWORDS DEFINED

Keyword	Meaning
KVS	**Kendriya Vidyalaya Sangathan** – runs the **Kendriya Vidyalayas**, central schools mainly for children of transferable central employees.
Vidya Samiksha Kendra	A **dashboard centre** that tracks **attendance, results and school data** in real time.
Dashboard	A **screen that shows key data at a glance**.
Digital governance	Using **technology** to run institutions **openly and efficiently**.
NEP 2020	**National Education Policy, 2020** – India's framework for school and higher education reform.

Vidya Samiksha Kendra (VSK)

- **Real-time dashboards** for student and staff **attendance**, **performance**, admissions and **infrastructure**.
- **Samiksha AI Bot** spots **learning and admin gaps** and suggests **targeted fixes**.

KVS-Samvaad Parent Connect

- App and web portal: **attendance, syllabus progress, results**, learning resources, **digital student IDs**.
- Online requests for **bonafide certificates**, **CEA certificates** and **leave** – fewer school visits.

Join FREE on Telegram
t.me/Prep_Rashan

KVS Alumni Connect

- Links **former students** with schools and batchmates.
- Alumni can offer **career guidance**, **mentoring** and help school development.

Why it matters and cautions

- **Data-driven governance**, **transparency** and better **parent–school** contact – in line with **NEP 2020** and **Digital India**.
- Built **in-house** by the **IT Services Cell** of KVS headquarters.
- Cautions: **student data privacy**, the **digital divide** among parents, and AI used to **support, not replace**, teachers' judgment.

PYQ – PRELIMS

- **Pattern:** Prelims asks about **education initiatives** and **implementing bodies**.

PYQ – MAINS

- **Pattern:** Mains asks about **technology in governance** and **school education quality**.

FQ – PRELIMS (Possible Question)

- The 'Samiksha AI Bot', recently in the news, is part of: (a) DIKSHA (b) KVS Vidya Samiksha Kendra (c) SWAYAM (d) PM eVidya **(Ans: b)**

FQ – MAINS (Possible Question)

- "Technology can make school governance transparent, but it must protect children's data." Discuss with reference to recent digital initiatives in schools. (150 words)

GENERAL STUDIES PAPER III

[GS-III] Technology, Economic Development, Bio-diversity, Environment, Security & Disaster Management

GS-III | Infrastructure – Hydropower; Environment; Tribal Rights

9. Siang Upper Multipurpose Project: Strategic Dam or Threat to the Adi Homeland?

Syllabus: *GS-III: Infrastructure – energy; disaster management; environment and EIA. GS-II: Rights of tribal communities; India–China relations.*

CONTEXT

The proposed **Siang Upper Multipurpose Project (SUMP)** in **Arunachal Pradesh** has led to **protests** by the indigenous **Adi** community over **displacement, ecology** and **consent**.

Photo: the Siang river at Pasighat, Arunachal Pradesh, flowing out of forested hills.
Photo: Rashid Jorvee, Wikimedia Commons, CC BY-SA 4.0

KEYWORDS DEFINED

Keyword	Meaning
Multipurpose project	A dam that serves **several aims** – **power, storage, flood control** – from one reservoir.
Live storage	The part of a reservoir's water that can **actually be released and used**.
FPIC	**Free, Prior and Informed Consent** – a community's right to **agree or refuse** before a project on its land.
GLOF	**Glacial Lake Outburst Flood** – a sudden flood when a **glacial lake bursts**.
Reservoir-induced seismicity	**Earthquakes triggered** by the weight and seepage of a **large reservoir**.

The project

- A storage dam on the **Siang** – the Indian stretch of the **Yarlung Tsangpo** – near **Geku**, **Upper Siang** district.
- Run by **NHPC**; about **11,000–11,200 MW**, dam **280–300 m** high, live storage about **9.2 billion cubic metres**.
- Still at the **Pre-Feasibility Report (PFR)** stage; sites studied include **Parong, Ditte Dime, Uggeng**.

Join FREE on Telegram
t.me/Prep_Rashan

Why the Government wants it

- The **North-East** holds nearly **40%** of India's **hydropower potential**.
- **Flood control** in **Arunachal and Assam**; about **12% free power** for the State.
- A **buffer** against China's planned **60,000-MW Medog dam** upstream – sudden releases or flow cuts.

Why people oppose it

- At least **40 villages** affected, **27** facing **submergence**; loss of **paddy fields** and **orange orchards**.
- The **Adi Bane Kebang** calls the river **Ane Siang** (Mother Siang) – **burial grounds** and rituals at stake.
- Claims that **MoU signatures** were taken under **pressure** – **'consent for a survey is not consent for a dam'**.
- **Seismic Zone V**, **GLOF** risk (the **2021 Uttarakhand** flood hit **Tapovan–Vishnugad**), and a basin with **82%+ forest**.

Way forward

- **Independent EIA** with real baseline data; a fresh **cumulative assessment** (the **2013** one was thin on field data).
- **FPIC** through **Gram Sabhas** and the **Adi Bane Kebang**; honour the **Forest Rights Act, 2006**.
- Study **smaller modular storages** instead of one mega-dam; add **dam-break** and **GLOF** modelling.
- **Transparency** – publish drilling results and risks; push **hydro-diplomacy** with China.

PYQ – PRELIMS

- **Pattern:** Prelims asks about **rivers and their Tibetan names**, **seismic zones** and **dams**.

PYQ – MAINS

- **Pattern:** Mains asks about **large dams**, **displacement** and **development vs environment**.

FQ – PRELIMS (Possible Question)

- The Siang river in Arunachal Pradesh is known in Tibet as: (a) Sutlej (b) Yarlung Tsangpo (c) Indus (d) Manas **(Ans: b)**

FQ – MAINS (Possible Question)

- Examine the strategic case for the Siang Upper Multipurpose Project and the concerns of indigenous communities. How can the two be balanced? (250 words)

GS-III | Environment – Climate Change; International Negotiations | UPDATE

10. COP31 in Antalya: From New Promises to Delivery

Syllabus: *GS-III: Environment – climate change, conservation; international agreements. GS-II: Global groupings.*

WHAT WE KNOW TILL NOW

- **COP31** is being held in **Antalya, Türkiye**; the **CCPI 2027** released there ranked India **28th**.
- The debate on **overshooting 1.5°C** and **loss and damage** grew after **Nepal's floods**.

WHAT TODAY ADDS

- COP31 tests **delivery**: **$300 billion a year by 2035** (Baku goal) and **tripled adaptation finance**.
- **Türkiye** proposed raising electricity's share of energy use from **about 23% to 35% by 2035**; **India declined to sign**.
- The **US** skipped COP31 for the **second year** after leaving the Paris Agreement.

CONTEXT

Leaders at **COP31** in **Antalya, Türkiye** – hosted by **Türkiye**, with **Australia** leading the negotiations – are judged on turning **old promises into action**.

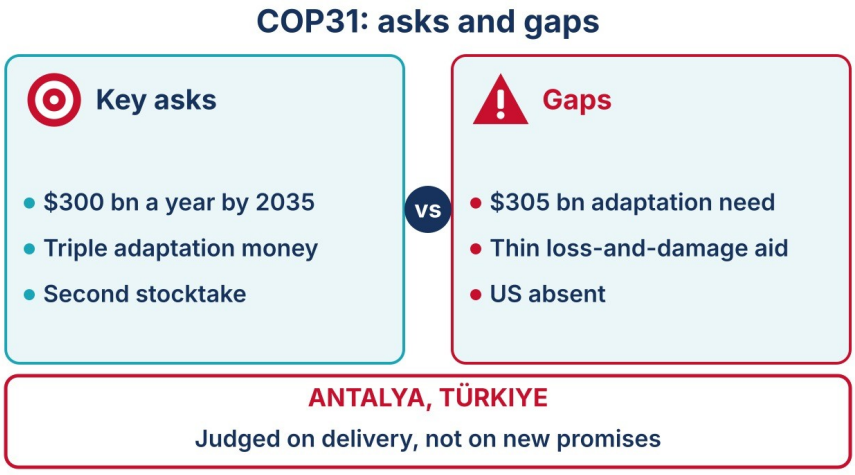

Illustration: COP31's key asks and the gaps that stand in the way.

KEYWORDS DEFINED

Keyword	Meaning
COP	**Conference of the Parties** – the yearly meeting of countries in the **UNFCCC** (1992).
NCQG	**New Collective Quantified Goal** – the **$300-billion-a-year by 2035** finance goal agreed at **COP29, Baku**.
Global stocktake	A **five-yearly review** of progress under the **Paris Agreement**.
Adaptation	Steps to **live with climate impacts** – sea walls, drought-proof crops, early warnings.

Join FREE on Telegram
t.me/Prep_Rashan

Keyword	Meaning
Unabated coal	Coal burned **without capturing** its CO_2.

Focus areas

- Deliver the **$300 billion a year by 2035** agreed at **COP29**.
- **Triple** international public **adaptation finance** by **2035** (a COP30 call).
- Start of the **second global stocktake**.
- Decisions on a **finance implementation framework** pushed to **COP32**.

What leaders asked for

- **UN Secretary-General:** cut emissions **6% a year**; phase out **unabated coal by 2040**; cut oil and gas use by **one-third**.
- **Brazil:** mobilise **$1.3 trillion**, end deforestation – Amazon loss down **71% (2022–2026)**.
- **Ethiopia: 56 billion+ seedlings** planted; reform **development-bank lending**.
- **India:** declined Türkiye's **electrification pledge**; wants **predictable finance, technology transfer** and **national choice**.

The gaps

- **UNEP Adaptation Gap Report 2026:** developing countries need **$305 billion a year by 2035**; tripled finance covers only **20–29%**.
- **Loss and Damage Fund** gave Nepal only **$21 million** – floods there killed **over 1,450** people.
- National plans give only **one-third** of the cuts needed for **1.5°C**; **no formal fossil-fuel roadmap**.
- **US absent**; top leaders of **France, Germany, Japan, Italy, Canada** stayed away; the **West Asia war** shifted focus to **energy security**.

Way forward

- Developed countries must **deliver finance** with **clear milestones**.
- **Adequate, quick loss-and-damage** support; help for **small island states** like **Fiji and Tuvalu**.
- **Credible, just fossil-fuel transition** plans that protect **workers**.
- **Early-warning systems for all**; measurable **national implementation** plans.

PYQ – PRELIMS

- **Pattern:** Prelims asks about **COP venues, outcomes** and **climate finance terms**.

PYQ – MAINS

- **Pattern:** Mains asks about **climate finance**, **equity** and **India's stand** in negotiations.

Join FREE on Telegram
t.me/Prep_Rashan

FQ – PRELIMS (Possible Question)

- The goal of mobilising $300 billion a year for developing countries by 2035 was agreed at: (a) COP27, Sharm el-Sheikh (b) COP28, Dubai (c) COP29, Baku (d) COP30, Belém **(Ans: c)**

FQ – MAINS (Possible Question)

- "COP31 will be judged by delivery, not new announcements." Discuss the priorities and gaps in global climate action. (250 words)

GS-III | Economy – Employment; Skill Development

11. India's Green Jobs Moment: 1.3 Crore Jobs by 2035 – If the Skills Arrive

Syllabus: *GS-III: Employment; inclusive growth; renewable energy. GS-II: Skill development policies.*

CONTEXT

A new study, **India's Green Jobs Moment**, says green sectors could support **over 1.3 crore jobs by 2035** – as extreme poverty fell from **27.1% to 2.6% (2011–2023)**.

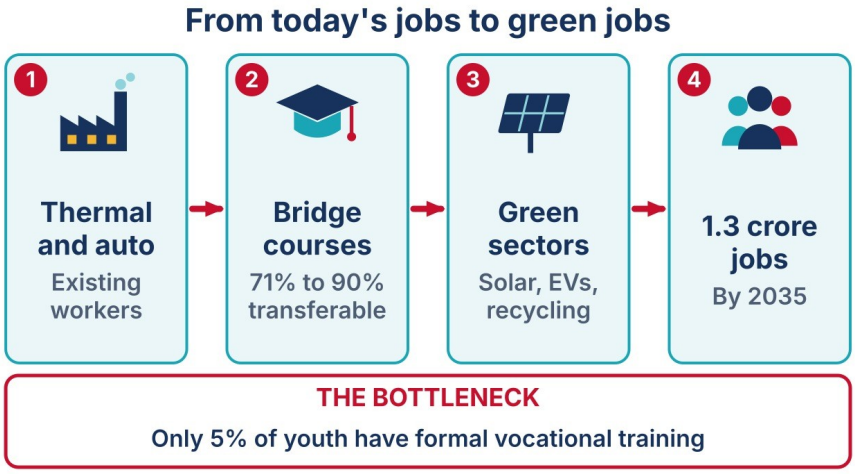

Illustration: the path from today's workers to tomorrow's green jobs – and the skill gaps on the way.

KEYWORDS DEFINED

Keyword	Meaning
Green job	**Decent work** that helps **protect the environment** – cuts emissions, waste or pollution, or builds climate resilience.
Skill transferability	How easily a worker's **existing skills** can be **used in a new sector**.
RPL	**Recognition of Prior Learning** – certifying skills a worker **already has**.
ITI	**Industrial Training Institute** – government vocational college for trades.
Demographic dividend	Growth chance when the **working-age share** of the population is **high**.

The opportunity

- Green sectors: **solar, wind, storage, green hydrogen, EVs, recycling**, **agroforestry**, **mangrove restoration**.
- **Over 1.3 crore jobs by 2035** (**98.5 lakh by 2030**); direct jobs in core green industries up about **4.5 lakh a year**.
- Jobs are **spread out** – rooftop solar, EV servicing, waste recovery – reaching **small towns and villages**.

Skills can move

- **71%** of **thermal power** roles can shift to renewables and green hydrogen.
- **90%** of conventional **auto** roles can move to **EVs** with short bridge courses.
- About **49.6 crore** Indians left poverty in 2011–2023 – they now need **secure livelihoods**.

Join FREE on Telegram
t.me/Prep_Rashan

The skills gap

- Only **5.3%** of youth have **technical education** and **5%** formal **vocational training**.
- Green skilling programmes have trained only about **81,000** people.
- **43%** of trained workers took courses **under six months**; many **ITIs** still teach only **petrol and diesel engines**.

Steps and way ahead

- **PM-SETU: ₹60,000 crore** to upgrade **1,000 ITIs** (**200 hubs, 800 spokes**).
- **Skill Council for Green Jobs** under the **MSDE**; the **2015 skill policy** being revised.
- A **National Green Jobs and Skilling Mission**; longer **industry co-designed diplomas**; **paid apprenticeships**.
- **Vocational exposure** in schools under **NEP 2020**; **track placements and wages**.

PYQ – PRELIMS

- **Pattern:** Prelims asks about **skilling schemes** and **sector skill councils**.

PYQ – MAINS

- **Pattern:** Mains asks about **jobless growth**, **skilling** and the **demographic dividend**.

FQ – PRELIMS (Possible Question)

- PM-SETU, recently in the news, aims to: (a) Build rural bridges (b) Upgrade government ITIs through industry-led hubs and spokes (c) Set up solar parks (d) Fund start-ups in green hydrogen **(Ans: b)**

FQ – MAINS (Possible Question)

- "India's green transition can be its biggest job creator if skilling keeps pace." Discuss. (250 words)

GS-III | Economy – Inflation; Monetary Policy

12. Retail Inflation Crosses 6%: What the New CPI Measures and What Comes Next

Syllabus: *GS-III: Indian economy – inflation, monetary policy; growth.*

> **CONTEXT**
> India's **retail inflation** rose to **6.09% in October 2026**, above the **RBI's upper tolerance limit of 6%** for the **first time in two years**.

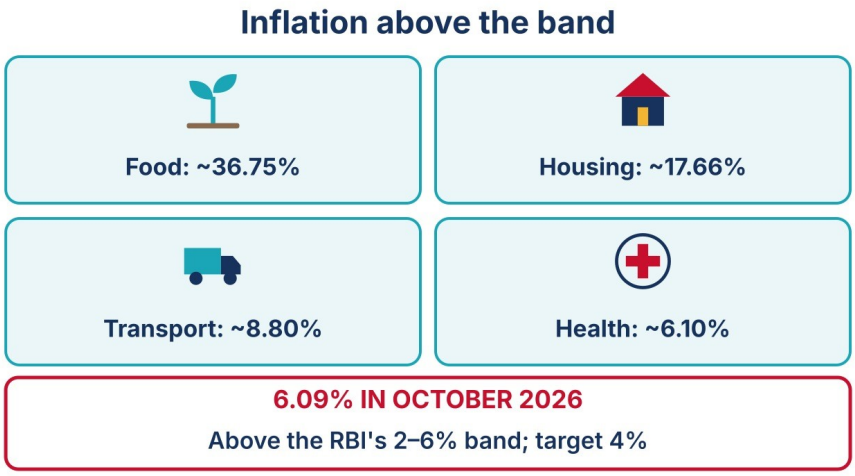

Illustration: the biggest parts of the new CPI basket and the inflation band the RBI must keep to.

KEYWORDS DEFINED

Keyword	Meaning
Retail inflation	The rise in prices of **goods and services households buy** – measured by the **CPI**.
CPI	**Consumer Price Index** – tracks the price of a **fixed basket** of consumer items.
Base year	The year whose prices are set at **100** for comparison – now **2024**.
Repo rate	The rate at which the **RBI lends to banks** – its main policy tool.
Flexible inflation targeting	A **numerical inflation target** with a **tolerance band** that the central bank aims to meet.

How it is measured

- Released monthly by the **National Statistics Office (NSO)**, **MoSPI**.
- New **CPI series, base 2024 = 100** (earlier 2012), built from the **Household Consumption Expenditure Survey 2023–24**.
- **358 items** (**308 goods, 50 services**) in **12 divisions** (**COICOP-2018**); prices from **1,465 villages** and **1,407 urban markets**, including **online platforms**.

What is in the basket

- **Food and beverages** about **36.75%** – the largest share.
- **Housing, water, electricity, gas** about **17.66%** – **rural rent** included for the **first time**.

Join FREE on Telegram
t.me/Prep_Rashan

- **Transport** about **8.80%**; **clothing** about **6.38%**; **health** about **6.10%**.

The inflation framework

- **Section 45ZA, RBI Act 1934:** the Government sets a **4% target** with a **2–6% band**, in consultation with the RBI.
- The **six-member Monetary Policy Committee** uses **CPI-Combined** to set the **repo rate**.
- If inflation stays outside the band for **three quarters in a row**, the RBI must **explain**, propose **fixes** and a **timeline**.

What it means

- Possible **repo rate hikes** – costlier loans, slower **private investment**.
- **Real incomes** of poor households fall most, as food is a big share of their spending.
- Government may use **buffer stock releases**, **import duty cuts** or **export curbs** for food.

PYQ – PRELIMS

- **Pattern:** Prelims asks about **CPI vs WPI**, **base years** and the **MPC framework**.

PYQ – MAINS

- **Pattern:** Mains asks about **inflation targeting**, **food inflation** and **growth trade-offs**.

FQ – PRELIMS (Possible Question)

- Consider: 1. The new CPI series uses 2024 as its base year. 2. The inflation target under the RBI Act is 4% with a 2–6% band. 3. CPI is compiled by the RBI. Which are correct? **(Ans: 1 and 2 only)**

FQ – MAINS (Possible Question)

- Inflation has crossed the upper tolerance band. Discuss the policy options before the RBI and the Government. (150 words)

GS-III | Agriculture / Science & Technology – Crop Protection

13. Pioxaniliprole: India's First Home-Discovered Insecticide Molecule

Syllabus: *GS-III: Agriculture – crop protection; science and technology – indigenisation; Make in India.*

CONTEXT

Pioxaniliprole, discovered by **PI Industries**, has been approved by the **Central Insecticides Board and Registration Committee (CIBRC)** for **rice, chilli, tomato and chana**.

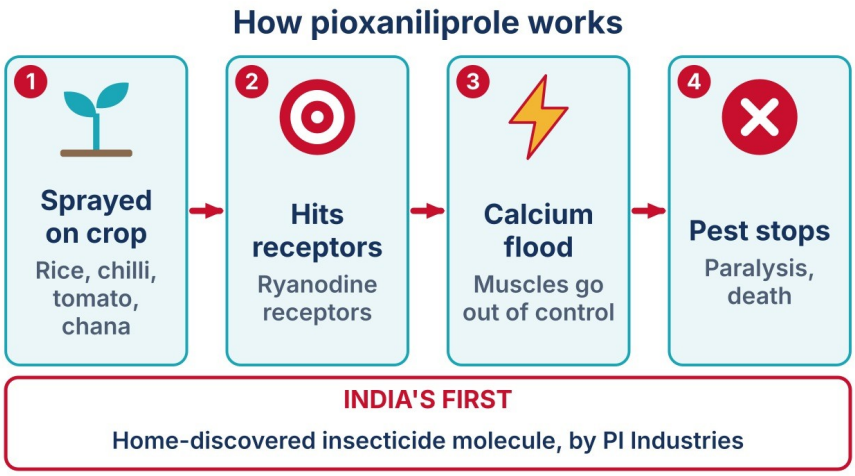

Illustration: how pioxaniliprole stops a caterpillar – from the receptor to paralysis.

KEYWORDS DEFINED

Keyword	Meaning
Insecticide molecule	A **new active chemical** that kills insects – the core of a pesticide product.
Diamide insecticides	A class that targets insect **ryanodine receptors** – used against **caterpillars**.
Ryanodine receptor	A **channel in muscle cells** that releases **calcium** to make muscles contract.
Suspension concentrate	A **liquid formulation** with fine solid particles of the active ingredient **spread in water**.
CIBRC	**Central Insecticides Board and Registration Committee** – approves pesticides under the **Insecticides Act, 1968**.

What it is

- **India's first indigenously discovered** insecticide molecule, by **PI Industries Ltd**.
- Belongs to the **anthranilic diamide** class; a **carboxamide** with chlorine, nitrogen, oxygen and sulphur.
- Sold as a **20% w/v suspension concentrate** – **20 g** of active ingredient per **100 ml**.
- Launch planned for the coming **rabi** season.

How it works

- Binds to and **switches on ryanodine receptors** in insect muscles.
- Causes an **uncontrolled release of calcium** inside muscle cells.
- The insect **stops feeding**, becomes **sluggish**, is **paralysed** and **dies**.

Join FREE on Telegram
t.me/Prep_Rashan

Target pests and crops

- Crops: **rice, chilli, tomato, chana**.
- Pests: **yellow stem borer, leaf folder, fall armyworm, tobacco cutworm, fruit borer, pod borer** – mainly **caterpillars**.

Why it matters

- **Indigenous R&D** – India has mostly **copied or imported** new molecules.
- May cut **import dependence** and add **export** potential.
- Watch: **resistance management** (rotate modes of action), safety for **pollinators**, and **correct dosage** use by farmers.
- **Value addition:** pesticides are regulated under the **Insecticides Act, 1968** *(general knowledge)*.

PYQ – PRELIMS

- **Pattern:** Prelims asks about **pesticide regulation**, **pests** and **modes of action**.

PYQ – MAINS

- **Pattern:** Mains asks about **agri-input innovation** and **safe pesticide use**.

FQ – PRELIMS (Possible Question)

- Pioxaniliprole, recently approved in India, acts on insects by targeting: (a) Acetylcholinesterase (b) Ryanodine receptors (c) Chitin synthesis (d) Sodium channels **(Ans: b)**

FQ – MAINS (Possible Question)

- "Home-grown agrochemical innovation must go hand in hand with safe use." Discuss with reference to India's first indigenous insecticide molecule. (150 words)

GS-III | Environment – Species in News

14. Rattlepod in Bloom: Munnar's Grasslands Turn Gold

Syllabus: *GS-III: Environment – biodiversity, species; conservation.*

CONTEXT

The **Yellapatty** grasslands near **Munnar** (Idukki, Kerala) turned golden with a **rare mass flowering** of **rattlepod (Crotalaria retusa)**, called **kilukilukki** in Malayalam.

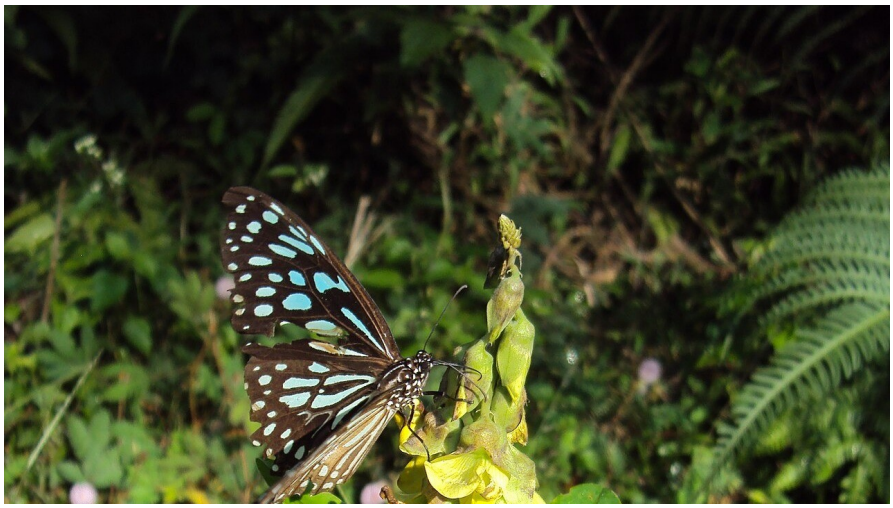

Photo: a Dark Blue Tiger butterfly on the yellow flowers of rattlepod (Crotalaria retusa).
Photo: Vinayaraj, Wikimedia Commons, CC BY-SA 3.0

KEYWORDS DEFINED

Keyword	Meaning
Legume	A plant of the **pea family (Fabaceae)** that bears **pods**.
Nitrogen fixation	Turning **air nitrogen** into a form plants can use – done by **bacteria in root nodules** of legumes.
Pyrrolizidine alkaloids	**Toxic plant chemicals** that **defend against grazers** and can poison livestock.
Pioneer species	A plant that **first colonises** bare or disturbed ground.
Endemic	Found **naturally only in one region**.

The plant

- An erect **annual** of the **pea family (Fabaceae)**; **30–150 cm** tall with **golden-yellow** flowers with **reddish veins**.
- Pods **3–4 cm** with **15–20 seeds** that **rattle** when dry – hence the name.
- Genus **Crotalaria** (Greek **krotalos**, 'rattle'): **700+ species**, mainly from **Africa**.

Habitat

- Open **tropical grasslands**, forest edges, riverbanks, coasts and **disturbed soils** up to about **1,200 m**.
- A **pioneer** that tolerates **poor soils**.
- The **Western Ghats** have **87** Crotalaria species, **31 endemic** to peninsular India.

Join FREE on Telegram
t.me/Prep_Rashan

Ecology

- **Fixes nitrogen** – used as **green manure** and **cover crop**.
- Contains **pyrrolizidine alkaloids** (mostly in seeds) – **toxic to livestock and poultry**.
- **Blue Tiger, Striped Tiger** and **Common Crow** butterflies take these alkaloids for **defence** and **pheromones**.

Why in news

- The bloom draws **eco-tourists** to **Yellapatty**.
- Raises awareness of **shola-grassland** biodiversity beyond the **12-year Neelakurinji** bloom.
- Grasslands need **protection** from **plantations and invasive plants** *(general knowledge)*.

PYQ – PRELIMS

- **Pattern:** Prelims asks about **species in news** – family, habitat and features.

PYQ – MAINS

- **Pattern:** Mains asks about **grassland ecosystems** and their **neglect**.

FQ – PRELIMS (Possible Question)

- Consider: 1. Rattlepod belongs to the legume family. 2. It fixes atmospheric nitrogen. 3. Its seeds are safe for livestock. Which are correct? **(Ans: 1 and 2 only)**

FQ – MAINS (Possible Question)

- Why are grasslands of the Western Ghats ecologically important, and why are they often neglected in conservation? (150 words)

Join FREE on Telegram
t.me/Prep_Rashan

GS-III | Environment – Protected Areas; Human–Wildlife Conflict

15. Nawegaon-Nagzira Tiger Reserve: Tiger Death by Suspected Electrocution

Syllabus: *GS-III: Conservation; protected areas; human–wildlife conflict.*

CONTEXT

Forest staff in Maharashtra's **Nawegaon-Nagzira Tiger Reserve** recovered the body of tiger **T-39**; **electrocution** is suspected.

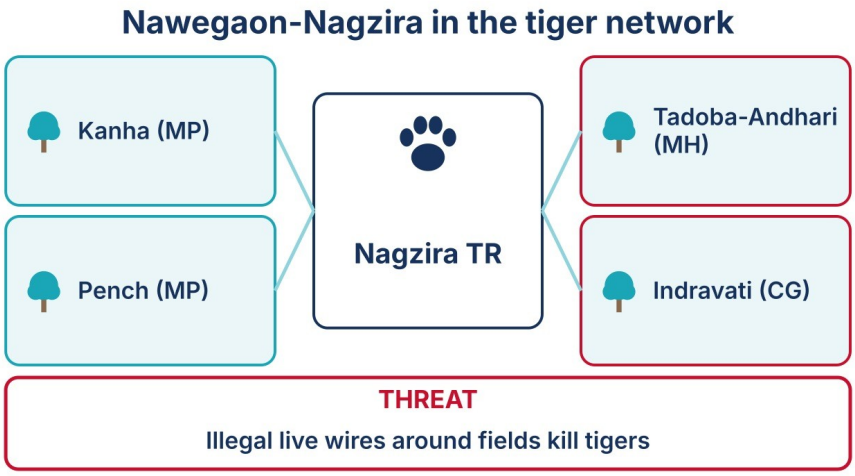

Illustration: Nawegaon-Nagzira's place in the central Indian tiger network and the threat of live wires.

KEYWORDS DEFINED

Keyword	Meaning
Tiger reserve	An area notified under **Project Tiger** with a **core** and **buffer** zone for tiger protection.
Electrocution	Death by **electric shock** – often from **illegal live wires** laid to guard crops or to poach.
Corridor	A strip of habitat that **links forests** so animals can **move between them**.
Dry deciduous forest	Forest whose trees **shed leaves in the dry season**.
NTCA	**National Tiger Conservation Authority** – oversees tiger reserves *(general knowledge)*.

About the reserve

- Spread over **Gondia** and **Bhandara** districts, **Maharashtra**.
- India's **46th** Tiger Reserve and Maharashtra's **5th**.
- Includes **Nawegaon NP**, **Nawegaon WLS**, **Nagzira WLS**, **New Nagzira WLS** and **Koka WLS**.

Landscape

- Undulating land; highest point **Zenda Pahad (702 m)**.
- **Southern tropical dry deciduous** forest with **bamboo**.
- **364 plant species**, e.g., **Terminalia tomentosa** and **Pterocarpus marsupium**.

Join FREE on Telegram
t.me/Prep_Rashan

Connectivity

- Linked to **Kanha** and **Pench** (Madhya Pradesh) and **Tadoba-Andhari** (Maharashtra).
- Also links with **Indravati** (Chhattisgarh).
- Wildlife: **tigers, leopards, wild dogs, sloth bears, gaur, sambar, chital, mouse deer**.

The threat of live wires

- Illegal **electric fences** around fields kill **tigers, leopards** and people.
- Fixes: **joint patrols** with power utilities, **insulated or raised lines** in corridors, **solar fences** at safe voltage *(general knowledge)*.
- **Crop-damage compensation** reduces the urge to lay live wires.

PYQ – PRELIMS

- **Pattern:** Prelims asks about **tiger reserves**, their **districts** and **links**.

PYQ – MAINS

- **Pattern:** Mains asks about **corridors** and **human–wildlife conflict**.

FQ – PRELIMS (Possible Question)

- Nawegaon-Nagzira Tiger Reserve is located in: (a) Madhya Pradesh (b) Chhattisgarh (c) Maharashtra (d) Telangana **(Ans: c)**

FQ – MAINS (Possible Question)

- "Tigers now die more often from humans' wires than from poachers' guns." Discuss the threat of electrocution and suggest remedies. (150 words)

GS-III | Security – China–Pakistan Military Ties

16. Karakoram-2026: China and Pakistan's First Regular Army Exercise

Syllabus: *GS-III: Security challenges in border areas. GS-II: Effect of policies of other countries on India's interests.*

CONTEXT

China and **Pakistan** held **Karakoram-2026**, their **first joint exercise with regular army formations**, in **Xinjiang**, which borders **Ladakh and Jammu & Kashmir**.

Illustration: what Karakoram-2026 tested – and what it means for India.

KEYWORDS DEFINED

Keyword	Meaning
Interoperability	The ability of two armies to **fight together smoothly** – common drills and command.
Mechanised formation	Army units that move and fight with **armoured vehicles**.
Electronic warfare	Using radio and radar signals to **jam, deceive or detect** the enemy.
Counter-UAV	Systems that **detect and bring down drones**.
Theatre command	A **single joint command** of army, navy and air force for one region.

About the exercise

- Hosted by **China** in the **Xinjiang Uyghur Autonomous Region**.
- Builds on earlier drills: **Warrior** (counter-terror), **Sea Guardian** (navy) and **Shaheen** (air force).
- Aim: **joint command**, **standard procedures** and **interoperability** in **high-altitude** terrain.

Key features

- **Regular infantry and mechanised** units – not just special forces.
- **Phase 1:** high-altitude tactics, close combat, **drone operations**; **Phase 2:** joint manoeuvres and **live fire**.
- **Mixed combat teams** of Chinese and Pakistani troops.
- Used **Chinese** weapons, armour, artillery and **counter-drone** systems – Pakistan's **dependence** on Chinese arms.

Join FREE on Telegram
t.me/Prep_Rashan

Implications for India

- Raises the risk of **two-front pressure** along the **LAC** and **LoC**.
- Activity near **Ladakh, Gilgit-Baltistan** and **Siachen**.
- Focus on **drone swarms** and **electronic warfare** in mountains.

India's response

- **Joint theatre commands** and **multi-domain deterrence**.
- **Indigenous** drones, counter-drone and **EW** systems.
- Better **border roads**, logistics and **high-altitude** readiness.

PYQ – PRELIMS

- **Pattern:** Prelims asks to **match exercises with participating countries**.

PYQ – MAINS

- **Pattern:** Mains asks about the **China–Pakistan nexus** and **two-front** challenges.

FQ – PRELIMS (Possible Question)

- 'Karakoram-2026', recently in the news, was a joint military exercise between: (a) India and Nepal (b) China and Pakistan (c) Pakistan and Türkiye (d) China and Russia **(Ans: b)**

FQ – MAINS (Possible Question)

- Assess the security implications for India of growing China–Pakistan military coordination. (150 words)

GENERAL STUDIES PAPER IV

[GS-IV] Ethics, Integrity & Aptitude

GS-IV | Ethics – Consent, Development and Indigenous Rights

17. Ethics Synthesis: Consent for a Survey Is Not Consent for a Dam

Syllabus: *GS-IV: Ethics in public administration; probity; values in governance; ethical concerns in development projects.*

CONTEXT

Adi villagers say signatures for a **dam survey** were taken under **pressure** – and that **agreeing to a survey is not agreeing to the dam**.

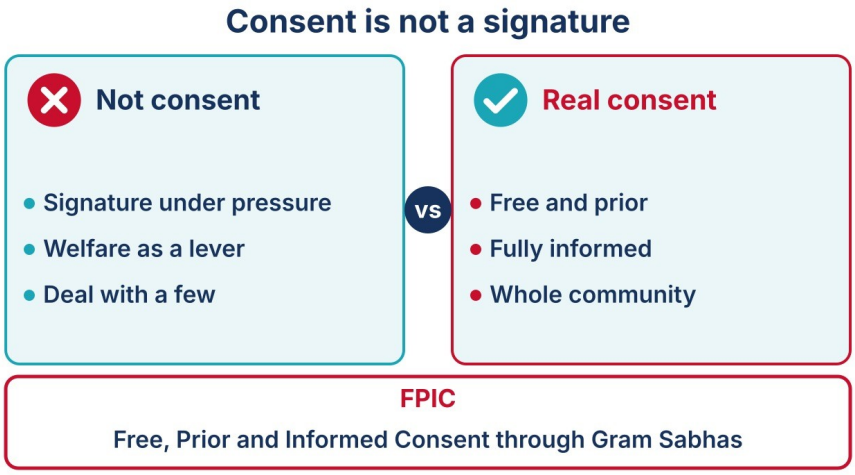

Illustration: real consent versus a mere signature – and what a fair process needs.

KEYWORDS DEFINED

Keyword	Meaning
Informed consent	Agreement given **freely**, with **full knowledge** of the facts and risks.
Coercion	**Pressure or threats** that remove a person's real choice.
Procedural justice	**Fairness of the process** by which a decision is made.
Distributive justice	**Fair sharing** of benefits and burdens.
Trust deficit	A **gap in confidence** between citizens and the State.

The dilemma

- **National needs** – energy, flood control, security – versus **local costs** – land, livelihoods, sacred places.
- Who bears the **burden**, and who gets the **benefit**?

Ethical issues

- **Coerced signatures** are not **consent**.
- Tying **welfare benefits** to signatures is an **abuse of power**.
- Small **packages to a few** do not equal **community consent**.

Join FREE on Telegram
t.me/Prep_Rashan

- **Security forces** at protests widen the **trust deficit**.

Values at stake

- **Respect for persons** – people are **ends**, not means.
- **Transparency** – share **risks and data** openly.
- **Fairness** – fair process and fair **benefit sharing**.
- **Empathy** for those who lose **homes and heritage**.

A fair way forward

- **FPIC** through **Gram Sabhas** and **traditional bodies**.
- **Independent assessment** and **open data**.
- **Grievance redress** and **benefit sharing** agreed **before** work starts.
- Gandhiji's **talisman** – think of the **poorest person** a decision affects *(general knowledge)*.

PYQ – PRELIMS

- Not applicable for Prelims – use these values in GS-IV.

PYQ – MAINS

- **Pattern:** GS-IV asks about **development vs rights** and **ethical decision-making** in administration.

FQ – PRELIMS (Possible Question)

- Not applicable for Prelims – use these values in GS-IV.

FQ – MAINS (Possible Question)

- As a District Collector, you find that consent for a project survey was obtained under pressure. What will you do? (250 words)
